The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/528,684	Applicant(s) FLECKENSTEIN ET AL.	
	Examiner Kevin E. Weddington	Art Unit 1614	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1614

Claims 1-29 are presented for examination.

Applicants' amendment and response filed December 6, 2007 have been received and entered.

Claims 3-27 and 29 are withdrawn from consideration as being drawn to the non-elected invention (37 CFR 1.142(b)).

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 2 and 28 are again rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for a compound of formula (I) or (II) or the pharmaceutically acceptable salts, does not reasonably provide enablement for a prodrug or metabolite of the compound of formula (I) or (II). The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention commensurate in scope with these claims.

Applicants' remarks regarding the applicants' specification does provide sufficient information regarding the subject matter of the claims as to enable one skilled in the pertinent art to make and use the claimed invention are not persuasive since the applicants have not showed or described the types of prodrugs or metabolites of formula (I) or (II) are intended by the recitation. Again, there is no

Art Unit: 1614

disclosure regarding any metabolite of the compounds of formula (I) or (II) disclosed in the instant specification.

The rejection made under 35 USC 112, first paragraph (scope of enablement) is adhered to.

Claims 1, 2 and 28 are not allowed.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 2 and 28 are again rejected under 35 U.S.C. 102(e) as being anticipated by Epstein et al. (US 2002/0103162 A1) of record, for reason of record as set forth in the previous Office action dated June 11, 2007 at pages 4-5 as applied to claims 1, 2 and 28.

Applicants' remarks regarding prior art, Epstein et al., does not teach or suggest specifically treating Parkinson's disease, not just memory loss, which is not always a part of Parkinson's disease are not persuasive since the applicants' claims do not exclude the critical feature of "memory loss". Clearly, applicants' claim 1 still reads on Parkinson's disease broadly, including memory defects such as age-associated

Art Unit: 1614

memory impairment and dementia resulting from Parkinson's disease as set forth in Epstein et al.

The rejection made under 35 USC 102(e) is adhered to.

Claims 1, 2 and 28 are not allowed.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
